E-Health - What Does It Mean To You and Your Family?

Wednesday, May 10

Electronic health records, patient portals, e-health. The transformation to paperless health can be complicated, a little scary and confusing to consumers. In this presentation, experts will help take the confusion out of electronic health records and patient portals, talk about security and explain how electronic and digital health information benefits patients and lowers the cost of care.

Why is Healthcare So Expensive? - Wednesday, October 11

The cost of healthcare is in the news almost continually. In this presentation, experts from UAHS will explain what's behind the cost of care, how hospitals are paid now and how they will be paid in the future, what's changing in health insurance and questions about the Affordable Care Act.

The Ratings Puzzle - How to Make Sense of Hospital Report Cards - Wednesday, November 15

Almost on a monthly basis, another round of publicly reported hospital quality ratings appear in the press. There are literally dozens of third party organizations posting hospital grades for the public to see. In this presentation, we will discuss the myriad of reports available to the public, how they get their information, what consumers should understand when they see these reports and where they should go to find the most reliable information.

Please RSVP one week in advance of scheduled dates to Stacy Williams, BRMC Community Outreach Coordinator, 814-362-8288, swilliams@brmc.com
